It is my pleasure to know that FENJ (Fund for Education in Nepal from Japan) a Japan based organization is going to publish a "Magazine" covering its various activities.

As education plays a vital role in the development of any country. Students are the future pillars of the nation and the foundation of the nation depends upon their quality. I believe that FENJ has been fulfilling the desire goal. I hope the magazine would able to provide various information to readers.

I wish every success of magazine.

Radha Krishna Mainali
Minister
Ministry of Education and Sports

Minister for Education and Sports

教育・スポーツ省大臣
